Internal and external stakeholders.
RESPONSIBLE FOR	This role does not have line management responsibility, though will support line management tasks as required (e.g. supervision mentorship, learning & development, competency identification etc)

JOB SUMMARY

- The role blends a significant proportion of direct, higher level clinical care with education, research and management activities.
- As an expert, will deliver high quality care to individuals, enable other practitioners to maintain professional expertise whilst exercising a high degree of autonomy. This will include 50% direct clinical practice and include non-medical prescribing.
- Education, training and development function. Provide specialist training and education, establishing formal links with local education providers. They will participate in the development of students working towards professional registration as well as the learning and development of qualified staff. Professional leadership and consultancy function. Demonstrate leadership skills to support and motivate others and to continuously improve quality of care and standards of practice, providing a source expertise and knowledge.

- Practice development, service evaluation and improvement function. Nurse practitioner will contribute to development of professional standards, through the promotion of evidence-based practice. They will also conduct research and evaluation of practice within their specialist field.
- Research and Quality function. Collaborate and work alongside colleagues to identify and support Quality and Research activity and initiatives.

MAIN DUTIES AND RESPONSIBILITIES

This is a key post within the specialist area and will have a role in defining, shaping and developing all services, including those in community settings.

Clinical Practice

- The ANP job plan will include designated sessions for delivery of direct, expert clinical care and evidenced-based, complex decision-making
- The ANP will promote clinical pathways across medical and nursing teams, practicing autonomously, in accordance with scope of practice and professional accountability, at an advanced level
- Role model advanced nursing practice for all nursing staff and the multidisciplinary team
- The post holder will provide system leadership, supporting Clinical Specialists to realise their full potential as autonomous practitioners to ensure seamless delivery of care and high-quality outcomes
- The post holder will act as an innovator, change agent and role model to support and influence clinical pathway redesign within services including quality, implementation of national initiatives, service reconfiguration and new digitally enabled models of care
- The post holder will work closely within an MDT in addition to key relationships above
- Expert advice and support to the clinical and medical teams
- Integrate holistic assessment, diagnosis, plan of care, treatment and discharge in accordance with the evidence base
- Participate in quality initiatives to achieve evidenced based clinical standards
- Recognise limitations in scope of practice and address theoretical and practice gaps through continuing education and consultation with medical colleagues

Professional Leadership

- Clinical leadership of the development of nurse-led practice, including strengthening nursing beyond the current scope of practice and generating innovation and transformation in service models and delivery
- Use advanced communication skills in all challenging contexts and communicate information that may be sensitive and complex
- Demonstrate self-awareness with compassionate and authentic leadership within inter-professional teams to influence practice for effective, holistic, person-centred care.

- Record keeping and data handling in accordance with hospice policy
- Promote an internal and external understanding of the role to increase the awareness of the scope of practice
- Demonstrate professional leadership and a strategic approach
- Lead and provide expert knowledge with colleagues in the writing and development of specific policies
- Lead on the production of an annual report, demonstrating goals and outcomes aligned to the organisational strategy
- Collaborate with quality lead role, with a focus on risk management, standard setting, safety, and continuous improvement, in accordance with governance requirements
- Ensure that effective safety procedures are established to comply with Health & Safety Guidelines
- Ensuring regular clinical supervision will be a requirement via organisational /external processes with allocated supervisor
- Professional curiosity is encouraged to explore learning, qualifications and development opportunities, to maintain capability to practice at an advanced level.
- Role model reflective and reflexive practice and advocate for access to individualised support and clinical supervision to ensure continuous learning, improvement and professional development of self and colleagues
- Support, influence and lead projects in line with the organisational strategy

Research

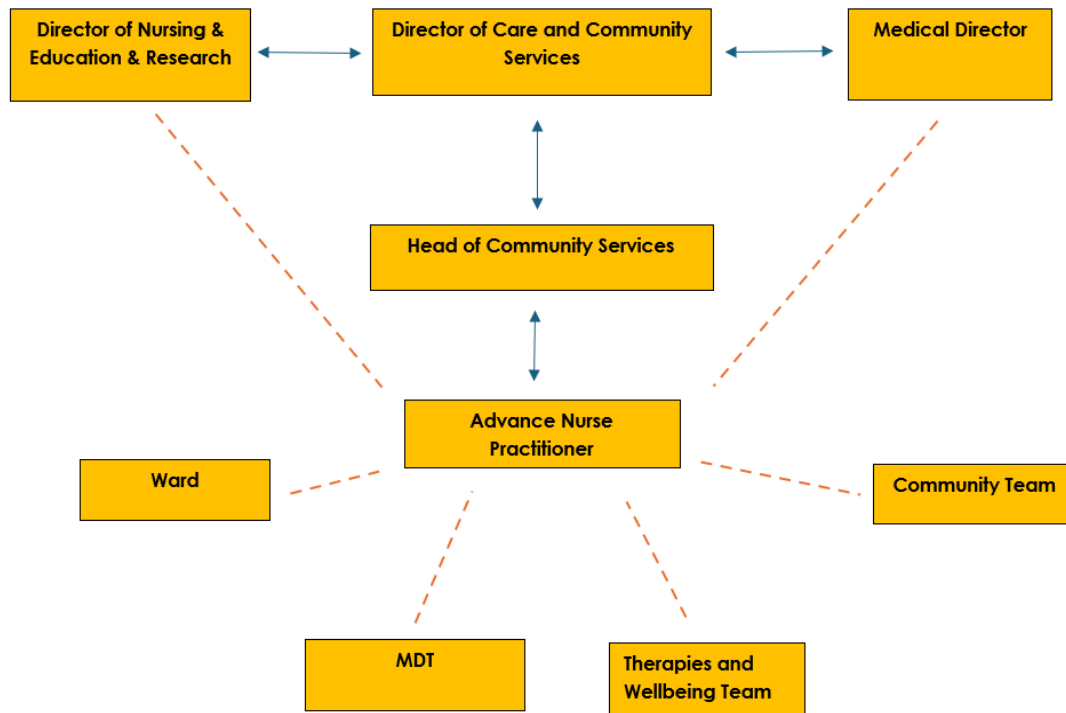

- Identify research priorities specific to area of clinical practice and the scope of practice/caseload
- Participate in and collaborate with the multidisciplinary team in undertaking research
- Lead, undertake, disseminate and publish nursing research to shape and advance nursing practice, education and policy and the wider health agenda as part the hospice research activity
- Work in partnership with the quality lead to implement a quality management system and utilise findings to initiate change in practice
- Initiate and foster links with higher education institutions and other organisations in relevant to research
- Contribute to service planning and budgetary processes through use of data and specialist knowledge
- Develop data collecting systems that will inform and evaluate the service provided
- The post holder will be a key member of the Research Interest and Audit Groups, contributing expertise and mentorship in these areas

Education

- The post holder will have an educational commitment to ensure clinical pathways and practices are enveloped in all staff training programmes
- Collaborate to facilitate the education and professional development of all nursing grades and other healthcare professionals

- Participate in facilitating learning and education (both undergraduate and post-graduate levels) and other health professionals in the clinical area
- Contribute to the professional body of knowledge and clinical practice, nationally and internationally, by writing, publishing and presenting outcomes
- Actively promote the development of a learning culture, to drive high performance, improvements and innovation

Organogram:

ADDITIONAL REQUIREMENTS OF POSTHOLDER

SENSITIVITY AND PROFESSIONALISM: As an employee of Saint Francis Hospice you will come into contact with patients, their families and members of the public who are at the end of life or recently bereaved. All employees are expected to respond to people recounting and expressing their emotions about such events with sensitivity and understanding, and to know enough about the services that the Hospice provides to be able to signpost people who may benefit from our services to the relevant contacts.

CONFIDENTIALITY: The post holder must maintain confidentiality, security and integrity of information relating to patients, staff and other hospice matter during the course of duty. Any breach of Confidentiality may become a disciplinary issue.

DATA PROTECTION: It is the responsibility of all staff to be aware of their obligations in respect of the Data Protection Act 2018.

EQUAL OPPORTUNITIES: The hospice is committed to the development of positive policies to promote equal opportunity in employment and has a clear commitment to equal opportunities. All employees have a responsibility to ensure that they understand the standards expected and that they promote and adhere to the equal opportunity measures adopted by the hospice.

HEALTH AND SAFETY: All staff must be familiar with section 2 of the Health & Safety Policy, Organisation of Health and Safety. This document sets out the responsibilities of all staff for health and safety, whether in a supervisory capacity or not. Policy section 3 (arrangements for Health and Safety) provides an overview of training for competence in Health and Safety matters.

HOSPICE IDENTITY BADGES: Hospice ID badges must be always worn whilst on duty.

SMOKING: The hospice acknowledges its responsibility to provide a safe, smoke free environment, for its employees, service users and visitors. Smoking is therefore not permitted at any point whilst on duty, in accordance with the guidelines set down within the Hospice No Smoking Policy.

REGISTRATION COMPLIANCE/CODE OF CONDUCT:

All employees who are required to register with a professional body to enable them to practice within their profession are required to comply with their code of conduct and requirements of their professional registration.

WORKING TIME REGULATIONS: The 'Working Time Regulations 1998' require that you should not work more than an average of 48 hours in each week. For example, in a 26 week period you should work no more than 1248 hours.

Please note that this job description is not definitive or restrictive in any way. It is a guide to the responsibilities of the role. It may be reviewed, in consultation with the post holder, in light of changing circumstances and the changing needs of the Hospice.

The post holder will be expected to perform any other such duties as might reasonably be required by the Director and will work in accordance with all Hospice Policies and Procedures. In an emergency, all staff may be required to work different hours or carry out different tasks to those set out in their contracts of employment. This will be done in consultation with individuals and taking into account any special circumstances that may exist.
